Extension: Rule 17a-6

SEC File No. 270-433, OMB Control No. 3235-0489

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for extension of the previously approved collection of information provided for in Rule 17a-6 (17 CFR 240.17a-6) under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.).

Rule 17a-6 permits national securities exchanges, national securities associations, registered clearing agencies, and the Municipal Securities Rulemaking Board ("MSRB") (collectively, "SROs") to destroy or convert to microfilm or other recording media records maintained under Rule 17a-1, if they have filed a record destruction plan with the Commission and the Commission has declared such plan effective.

There are currently 29 SROs: 18 national securities exchanges, 1 national securities association, the MSRB, and 9 registered clearing agencies. Of the 29 SROs, only 2 SRO respondents have filed a record destruction plan with the Commission. The staff calculates that the preparation and filing of a new record destruction plan should take 160 hours. Further, any existing SRO record destruction plans may require revision, over time, in response to, for example, changes in document retention technology, which the Commission estimates will take much less than the 160 hours estimated for a new plan. The Commission estimates that each SRO that has

filed a destruction plan will spend approximately 30 hours per year making required revisions. Thus, the total annual compliance burden is estimated to be 60 hours per year based on two respondents. The approximate compliance cost per hour is \$380, resulting in a total internal cost of compliance for these respondents of \$22,800 per year (60 hours @ \$380 per hour).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
